

Your Safety Is Not A Commodity

2021 BEST NEW ERGODYNE WORK GEAR Always Innovating, Never Stagnating

Since 1983, Ergodyne has pioneered the development of products that Make The Workplace A Betterplace™

GLOWEAR® HI-VIS TOOL TETHERING SAFETY VEST KIT

The Vest provides versatile tethering and storage options for working at heights. Intended for tethering tools under 2lbs, this safety vest is dual certified for both ANSI/ISEA 121 and ANSI/ISEA 107 compliance. Unlike other hi-vis vests worn underneath fall protection harnesses, this surveyor's vest is designed to be worn over the top of the system for maximum visibility and accessibility to tool tethers at heights. Kit includes the 8231TV Safety Vest, plus three tool lanyards for tethering tools to the vest.

ProFlex PR Cut-Resistant Protective Arm Sleeve – ANSI A4 Level Moisture-Wicking

Hi-Vis Cut-Resistant Protective Arm Sleeve offers level 4 cut protection with a breathable, moisture-wicking material. This A4 cut-resistant Sleeve is an innovative, first-of-its-kind sleeve that provides protection from cuts and slashes while incorporating moisture-wicking fibers to keep workers cool.

Skullerz Class E Safety Helmet + LED Light

Class E Safety Helmet with 6-Point Suspension. This helmet provides heavy-duty yet lightweight and comfortable head protection designed to shield the front, back, top and sides of the head from falls, dropped objects or bumping into stationary objects. The compact helmet design increases all-over impact protection and improves visibility, and a chin strap ensures the helmet remains secure to the wearer's head upon impact or sudden movement.

PROFLEX COMFORT HINGED HARD CAP GEL KNEE PADS W/ HOOK & LOOP

Hard Cap Gel Knee pads take our best-selling 335 gel knee pads and adds Comfort Hinge™ technology. The Comfort Hinge™ sets the bar for comfort in knee pads for work. The top strap sits higher on the leg and away from the back of the knee, which helps keep you from walking out of the front of the knee pad, while adding another layer of protection against impacts to the thigh.

N-Ferno Winter Hand Warmer

Is worn around the waist to provide instant warming relief when working in the elements, particularly extreme temperature conditions where fine hand dexterity work prevents use of warm gloves.
