

Keep Your Cold & FLU Germs to *YOURSELF*

It is estimated that one billion colds are caught annually in the United States. According to the Centers for Disease Control and Prevention, 3 to 11% of the U.S. population catches the flu annually as well. The flu season in the U.S. typically ranges from November to April. While it is a myth that cold temperatures cause colds, it is true that cold weather keeps people indoors, making exposure more likely.

WASH	DISINFECT	PROTECT
<p>Wash hands thoroughly & often for at least 20 seconds</p>	<p>Clean & Wipe down shared surfaces</p>	<p>Get a flu shot if possible</p>
<p>Eat healthy foods and exercise moderately</p>	<p>Drink plenty of water</p>	<p>Get lots of rest</p>
BE HEALTHY	HYDRATE	REST
