

# Are your Safety Glasses FOGGING Up?

## Protecting Your Eyes & Protecting Your Investment

A few seconds without safety eyewear, removed to wipe off fog or dirt, can lead to serious injury. That's why investment in comfortable, stylish proper fitting eyewear is so important. Protect your eyes and your investment with new and improved lens maintenance products from Honeywell Uvex.

### Why are my glasses foggy?

Condensation—whether from warm breath, humidity in the air or temperature changes.

### 7 Ways to Avoid Foggy Glasses

1. Wash lenses with soapy water.
2. Seal your mask.
3. Make sure your mask fits well.
4. Adjust your glasses.
5. Use de-fogging products.
6. Breathe downward.
7. Check out anti-fog lenses.
