

# SPRAY is the way to go

# 5

## REASONS TO SWITCH TO PIP's NEW Hand Sanitizer

### INSTANT HAND SANITIZER SPRAY KILLS 99.99% OF GERMS

- PIP® Hand Sanitizer Spray is ideal for first aid kits, office use, easy to store in bags, and vehicles.
- Formulated with 66.5% ethyl alcohol to help you meet CDC, APIC, and OSHA hand washing recommendations
- Contains aloe vera to keep your skin feeling soft and smooth all day long
- Available in 2oz and 4oz spray bottles

# 1

### Manufactured In An FDA Registered Facility

Batch tested by a third-party laboratory—contains no harmful toxic chemicals commonly found in cheap formulations

# 2

### Non-Greasy, Quick Drying Formulation

Spray mist formula makes PIP's instant hand sanitizer spray ideal for direct use on gloves without any annoying residue

# 3

### Seriously Tough On Germs

Quality formulation 66.5% ethyl alcohol, well above the CDC's tough 60% recommendation

# 4

### No More Dry, Chapped Hands

Infused with aloe vera for added moisture, the perfect balance between germ protection and comfort

# 5

### Made In The USA

Available in two convenient sizes for personal use that are in-stock and ready to ship NOW
