**DUPONT**™

# Simplify your PPE Selection Process

From flash fire to exposure to hazardous chemicals, workers in the chemical manufacturing industry face a variety of on-the-job hazards. DuPont has the in-depth knowledge, globally recognized expertise, and **Scientific Sales** has the "one-stop-shop" portfolio of PPE solutions to help keep workers safe. DuPont's new PPE guide was developed specifically for workers in the chemical manufacturing industry — to help you quickly and easily match the right protection to the tasks and hazards you face.

Tychem® chemical and secondary FR protection solutions

## Tychem®

DuPont™ **Tychem**® garments deliver durable protection and offer strong permeation barrier against a wide range of chemicals. Together with **Tychem**® gloves and tape, they create the **Tychem**® Trusted Chemical System™ for complete protection.

## Tyvek®

DuPont™ **Tyvek**® garments provide workers with superior protection from small-sized hazardous particles, including lead, asbestos and mold. And because protection is built into the fabric itself, here are no films or laminates to abrade or wear away.

Tychem® chemical protective gloves

Flame-resistant (FR) and arc-rated (AR) garments made with **Nomex**®

## Nomex®

DuPont™ **Nomex**® offers a tested and proven portfolio of protective solutions that continues to meet or exceed global standards for heat, flame and electric arc flash protection.\*

Cut-resistant, heat-resistant, and impact-protective gloves made with **Kevlar**®

## Kevlar®

Gloves made with DuPont™ **Kevlar**® offer industry-leading cut protection, built-in heat and flame resistance and electric arc flash protection, while providing the dexterity and comfort workers want.

# Protection for every task

Confined space entry

Emergency response—fire, spill or release

Insulation work— asbestos or non-asbestos

Laboratory

Line breaking/vessel opening

Loading/unloading rail cars or trucks

Maintenance—electrical work

Packaging operations

Preventive maintenance

Product separation/purification

Raw material/process sampling

Reactor operations
