

Bringing Better Ideas to the Surface

Practical tape solutions for the right job.

In the 3M™ Industrial Adhesives and Tapes Division, 3M™ applies the science of adhesion to deliver innovative solutions that improve the design and manufacturing processes of companies around the world. In the end, their technologies help customers like you deliver competitive products to the market faster and more efficiently. Whether you're looking to protect, mask, enhance or otherwise modify surfaces to improve the appearance, function or productivity of your products or processes, these tapes will help you get the job done right.

High Strength Tapes

When you need a tape as strong as your reputation, you can count on 3M's consistently reliable, market-leading high strength tapes that are engineered to meet virtually any strapping, bundling or reinforcing challenge.

Masking, Duct and Flatback Tapes

To get the job done right the first time, you need to use the right tools. That's why we offer a full lineup of industrial tapes with unmatched dependability. From tapes that withstand extreme temperatures to tapes that remove cleanly in UV conditions, you can trust 3M to help you get the job done right.

Specialty Tapes

To help simplify and streamline the selection process, six products have been highlighted for their versatility. These Specialty Six solve 80% of customer application needs. The six represent the key backings that comprise much of the 3M™ Specialty Tapes line: glass cloth, metal foil, polyester, slick surface (PTFE), and vinyl.
