

# DBI-SALA® Fall Protection for Tools

Protecting workers takes more than just keeping them from falling. From construction sites to oil rigs, 3M™ DBI-SALA® Fall Protection for Tools makes work environments safer and more productive by drastically reducing falling object incidents that can result in personal injury, equipment damage, and tool loss.

## Certified and Tested

Our drop prevention solutions are designed with the craft in mind, and are third-party tested in the harshest possible conditions – extreme heat, cold, moisture, corrosion and abrasion. We conduct dynamic and static strength tests, both in the field and in our ISO 9001-certified manufacturing facilities to ensure you get high quality and reliable fall protection for tools.

### DBI-SALA® Dual Tool Holster with 2 Retractors

Constructed from a premium heavy duty ballistic denier fabric and high density webbing, the 3M™ DBI SALA® Dual Tool Harness Holster is engineered to withstand punishing environments. Heavy duty 2.5 cm (1") D rings are built into both sides of the holster and are load rated for 2.3 kg (5 lbs.). Neoprene pockets on the front and back of the holster each accommodate Steel Cable Retractors (2 retractors included).

Product # 1500107

### DBI-SALA® Spray Can / Bottle Holster with Clip2Clip Coil Tether

This neoprene holster with a side release composite buckle holster is commonly used with water bottles, spray paint cans, and other aerosol spray cans. This combo also includes a Clip2Clip Coil Tether. The adjustable strap allows the holster to conform to the size of your water bottle and comes with an aluminum carabiner.

Product # 1500092

### DBI-SALA® Quick Spin Large Size

3M DBI-SALA Quick Spins make tools tether-ready in seconds. Quick Spins are available in many sizes to accommodate a wide selection of tools. Reusable, suitable for non-conductive use, and a tangle-resistant spin top make Quick Spins an outstanding drop prevention solution that doesn't deface tools. Quick Spins are made from a thermoplastic rubber and polyester material (TPU), while the spin tops are made of a polyacetal and black carbon powder (POM).

Product # 1500029

### DBI-SALA® Adjustable Wristband with Retractor and Trigger Snap

The 3M™ DBI-SALA® Adjustable Wristband with Retractor is constructed out of elastic webbing that can be adjusted to virtually any wrist size. A replaceable 3M™ DBI-SALA® Safety Steel Cable Retractor is included with an attached thumb-operated trigger allowing tools to easily be tied off.

Product # 1500086

### DBI-SALA® Hook2Loop Bungee Tool Tether

3M DBI-SALA Quick Spins make tools tether-ready in seconds. Quick Spins are available in many sizes to accommodate a wide selection of tools. Reusable, suitable for non-conductive use, and a tangle-resistant spin top make Quick Spins an outstanding drop prevention solution that doesn't deface tools. Quick Spins are made from a thermoplastic rubber and polyester material (TPU), while the spin tops are made of a polyacetal and black carbon powder (POM).

Product # 1500047

### DBI-SALA® Holster with Retractor & Large Tape Measure Sleeve Combo

The 3M DBI-SALA Holster with Retractor and Large Tape Measure Sleeve Combo is an easy to use combination unit. The heavy-duty constructed neoprene tape measure sleeve fits most 25 ft. (7.62 m) tape measures and allows your tool to be securely tethered while working at height. A belt clip on the back of the sleeve allows the sleeve to be holstered quickly. A retractor feeds through the back of the holster and can be connected to a D-ring on the tape measure sleeve. D-rings on both sides of the holster allow for an alternative means of tethering the tape measure sleeve.

Product # 1500166

### DBI-SALA® Quick Wrap Tape II

Our redesigned 3M DBI SALA Quick Wrap Tape II helps deliver long lasting tool attachment performance while requiring up to 40% less tape compared to our previous generation 3M DBI SALA Quick Wrap Tape. Proprietary 3M material and adhesive technology helps provide good tear resistance while you work. High elongation properties result in more wraps with the same length of tape. Conforms to the shape of tool handles, adheres on contact to most clean tools and can be repositioned during installation. Enhanced stretching results in a thin, low profile installation. Ready for use upon installation no waiting period required. Connection points on tools up to 2 lbs.

Product # 1500172

### DBI-SALA® Adjustable Radio/Cell Phone Holster

The DBI Sala Adjustable Radio/Cell Phone Holster Kit includes everything you need to create a secure attachment point for tethering a handheld device. The holster can adjust to the size of any portable radio, cell phone, or camera and the unique mounting system allows the holster to attach easily to harnesses and tool belts. The DBI Sala Clip2Loop Coil Tether holds up to 2 lbs and features a clip at one end and a loop at the other. The DBI Sala Micro D-Ring has a flexible notched surface for an easy connection point.
