DUPONT™

FROM TYVEK® TO ... TYVEK® XPERT

Decades of experience in the field have made Tyvek® garments a point of reference in chemical protective clothing. By continuing to improve, to fine-tune and to innovate, DuPont has pushed Tyvek® garments to a new level of protection: Tyvek® Xpert, setting a new standard of protection in the type 5/6 category.

Redefining Protection in Every Detail

Xtra Protection thanks to the innovative design. Observing, testing, changing, re-testing...is the only way to come up with the design that will answer your needs. Tyvek® Xpert is designed for optimal safety, minimizing the exposed areas of the wearer in all working conditions:

- NEW!** Hood shape to perfectly follow head movements and mask fit
- NEW!** Larger zipper puller; easier to fasten and unfasten when wearing gloves
- Glued-in (not stitched) waist elastic for protection and good fit
- Elastic hood, wrist and ankles for perfect fit
- NEW!** Overall ergonomic shape for better fit and protection when moving
- 3-piece hood for optimal fit
- Zipper and Tyvek® storm flap for increased protection
- External serged seam
- NEW!** Sleeves that won't ride up, so thumb loops are no longer needed!
- Ample crotch area for better freedom of movement

- ✓ Stringent quality assurance for extremely high garment quality
- ✓ Good breathability thanks to air and moisture vapor permeability
- ✓ Silicon-free

Style #: TY 198S
 Sizes: SM-7X
 CE Certified
