

TINGLEY

est. 1896

Keeping Generations Comfortable and Safe! Tingley believes that hard-working folks deserve to be safe, comfortable and protected in any environment. Mud, rain, chemicals, traffic, wind, darkness—the element and hazards are no match for the durability, reliability and protection that Tingley boots and apparel provide.

Type O Safety Vests

Introducing new safety clothing made for a variety of off-road applications. Workers in environments with minimal exposure to moving equipment/vehicles find the Type O Class 1 options give them a solution for every season.

- Designed for Use in Off-Road Applications Where High Visibility and Durability are Desired
- ANSI/ISEA 107 Type O Class 1 compliant vest for high visibility
- D-ring access for fall protection harness
- CSA Z96 Class 1 Level 2 compliant vest for high visibility
- Zipper front closure for easy on/off

Type O Class 1

Breathable

FLITE® Mid-Calf Safety Toe Boot

Made from Aerex 1.5.5® – a proprietary, chemical-resistant, thermally-insulative, microcellular polymer, resulting in boots that are over 40% lighter than most steel toe PVC and rubber knee boots. Lightweight upper, cushioned heel, slip-resistant nitrile rubber outsole and composite toe give superior comfort and safety.

Pylon™ Snugleg Boots Are Designed For Tough Industrial Environments

Our Pylon Snugleg Boots are made with a multi-ply manufacturing method. Every boot is dipped with a neoprene coating and sealant, so the foot is surrounded by a layer of 100% waterproof and chemical resistant neoprene for optimum protection and extraordinary comfort.

- Hand-layered construction allows for a soft flexible upper and more material in the toe and heel contact points, for optimum comfort and protection.
- Safety-toe styles meet ASTM F2413 M I/75 C/75 EH, for steel toe caps and Electrical Hazard Protection.
- Snugleg last design hugs the foot for all day working comfort.
- Removable polyurethane contour cushion insoles for maximum comfort.
- Dense fabric liner for easy on and off. Also wicks moisture and condensation.
- Chevron or Safety-Loc outsoles offer abrasion resistance and provide excellent slip resistance on wet-contaminated or wet-clean surfaces, respectively.
- Steel shank for added arch support.
