

3M™ SecureFit™ Protective Eyewear

Protecting your vision on the job is important. But it doesn't have to mean sacrificing style or comfort. Get eyewear that performs — and looks good doing it. Featuring a comfortable fit and a sleek profile designed to work with other personal protective equipment, 3M™ SecureFit™ Protective Eyewear helps keep you safe and comfortable on the job.

Performance. Style. Comfort.

The Science of comfort.

We collected data on head and face shapes around the world to develop a patented design that self-adjusts to individual head sizes. This design provides the same level of comfort to individuals across a diverse workforce. Regardless of head size, from small heads to large heads, our 3M™ SecureFit™ Pressure Diffusion Temple Technology is designed to provide a secure and comfortable fit for an extended period of wear time.

Designed to Perform

The benefits are clear.

Fogged lenses can be frustrating and dangerous. But 3M™ SecureFit™ Protective Eyewear models featuring 3M™ Scotchgard™ Protector Anti-Fog Coating can help workers see clearly for longer, thanks to an active ingredient that bonds the coating to the lens.

3M™ Scotchgard™ Protector Anti-Fog Coating

- Resists fogging longer than traditional anti-fog coatings through up to 25 washings with water.
- Helps provide scratch resistance in tough work environments.
- Designed for working in challenging situations, such as hot and humid conditions, indoor/ outdoor work, physically demanding tasks and climate-controlled areas.
- Workers can feel confident wearing 3M eye protection that meets both the Impact Rated Protector and Anti-Fog Performance requirements of the ANSI-ISEA Z87.1-2020 Standard.
